VANCOUVER, Wash., March 15, 2022 /PRNewswire/ -- Northwest Pipe Company (NASDAQ: NWPX) (the "Company"), an industry leader of engineered pipeline systems for water infrastructure and high-quality precast and reinforced concrete products, today announced its financial results for the fourth quarter and full year ended December 31, 2021. The Company will broadcast its fourth quarter and full year 2021 earnings conference call on Wednesday, March 16, 2022 at 7:00 a.m. PT.

Acquisition of ParkUSA

As previously announced, the Company completed the acquisition of ParkUSA, a precast concrete and steel fabrication-based company that develops and manufactures water, wastewater, and environmental solutions, on October 5, 2021 for cash consideration of approximately \$88.4 million, subject to a post-closing adjustment based on changes in net working capital. The acquisition was funded through borrowings on the Company's line of credit.

Effective in the fourth quarter of 2021, the Company revised its reporting structure to better align with its internal management structure and the financial information used to assess its performance and allocate resources. As such, the Company is reporting on two operating segments: 1) Engineered Steel Pressure Pipe and 2) Precast Infrastructure and Engineered Systems.

Management Commentary

"We remain very excited about our recent acquisition of ParkUSA. ParkUSA's product portfolio of precast related environmental solutions and engineered water control systems serves both the commercial and residential construction markets. We expect the business to be immediately accretive and to create organic growth opportunities throughout the Company," said Scott Montross, President and Chief Executive Officer of Northwest Pipe Company.

Mr. Montross continued, "The significant number of project bidding delays that we experienced during 2021 resulted in one of the smallest tonnage water transmission bidding years we have seen in a very long time. In combination with a small market, a volatile steel market with significant delivery disruptions and customer driven production delays of orders already in backlog, created downward pressure on margins. Despite the headwinds, we ended the year with a record backlog including confirmed orders of \$290 million, which is expected to continue to grow in size and quality due to very strong bidding we experienced so far in the first quarter of 2022. However, we expect water transmission margins to remain muted in the first quarter of 2022 as we work through older backlog, and anticipate margin expansion beginning in the second quarter of 2022."

Mr. Montross concluded, "Our precast concrete business was strong throughout 2021 producing a record level of revenue, strong gross profit, and a record order book of \$51 million as of December 31, 2021. Despite owning ParkUSA for less than a full quarter, the business contributed \$18 million in revenue to our fourth quarter results. Our growing precast related business continues to gain strength in its ability to off-set slower periods in the water transmission market. Based on the current precast related market strength, we are entering 2022 with solid momentum and expect the precast business to remain strong for the near term."

- SPP gross profit decreased 20.5% to \$8.7 million, or 12.1% of SPP net sales, in the fourth quarter of 2021 from \$10.9 million, or 18.8% of SPP net sales, in the fourth quarter of 2020 due to the combination of changes in product mix and pressure on project pricing.

Precast Infrastructure and Engineered Systems Segment ("Precast")

- Precast net sales increased 174.2% to \$31.0 million in the fourth quarter of 2021 from \$11.3 million in the fourth quarter of 2020 primarily due to the ParkUSA operations, which contributed \$18.0 million in Precast net sales during the fourth quarter of 2021.

Precast gross profit in the fourth quarter of 2021 was reduced by \$2.3 million in higher acquisition-related fair value inventory charges.
- Precast order book³ was approximately \$51 million as of December 31, 2021 compared to \$24 million as of September 30, 2021 and \$11 million as of December 31, 2020. December 31, 2021 is the first period that includes the order book for ParkUSA.

- Gross profit decreased 12.4% to \$44.3 million, or 13.3% of net sales in 2021 from \$50.5 million, or 17.7% of net sales, in 2020.

Engineered Steel Pressure Pipe Segment (SPP)

- SPP net sales increased 7.5% to \$259.8 million in 2021 from \$241.7 million in 2020 driven by a 15% increase in selling price per ton due to increased materials costs and changes in product mix, partially offset by a 6% decrease in tons produced resulting from changes in project timing.
- SPP gross profit decreased 29.4% to \$31.3 million, or 12.0% of SPP net sales, in 2021 from \$44.3 million, or 18.3% of SPP net sales, in 2020 due to the combination of changes in product mix and pressure on project pricing.
